Wilhelm Gravel

MODEL OVERVIEW

Off the grid

In a modern world living a simpler life is not an unknown longing for many people living in cities. Even as an expert in urban mobility, Schindelhauer is driven by this desire from time to time. The reason for Wilhelm's Gravel line, which makes self-sufficient riding on unpaved ground a piece of mind moment, was to create more independence in the face of constant dependence. Wilhelm Gravel allows you to exceed the well-known urban environment and start out to bond with nature in a whole new way. Wide tyres, new options for the transmission, smart carrying solutions and the perfect accessories make the foundation of a new line of Wilhelm.

MODEL VARIANT 1

Pinion Smart.Shift

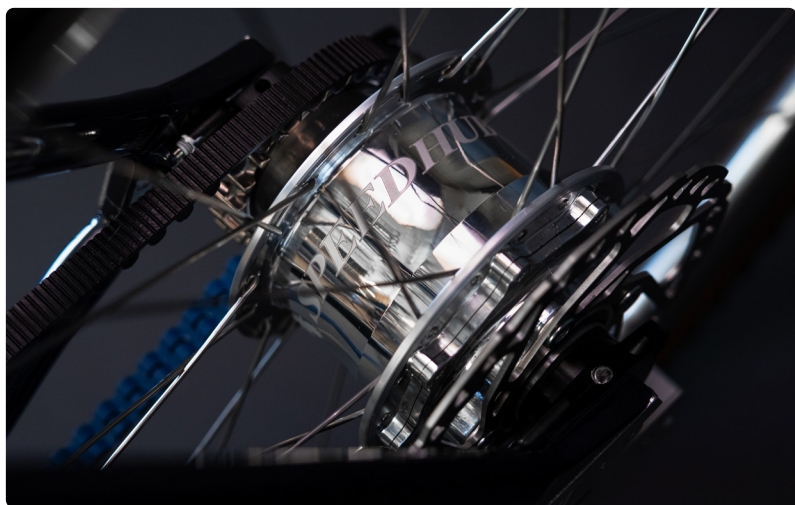

12-speed Pinion C-Line
Smart.Shift electronic transmission
TRP - HYWIRE
silver/black components

MODELL-VARIANTE 2

Rohloff

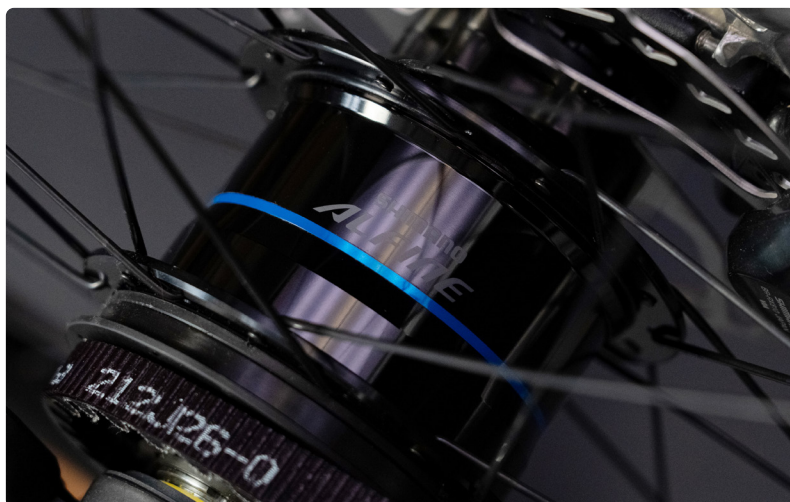

14-speed Rohloff
GEBLA Rohbox
Shimano GRX
silver/black components

MODEL VARIANT 3

Shimano Di2

11-speed Alfine Di2
electronic gear-shifting
Shimano GRX
black components only

Optional configuration

SEIDO RGT carbon fork • 530.00 €

Tyre clearance up to 47 mm for 622 and 54 mm for 584, internal routing of brake line and light cable, option to fit Anything Cages.

Switch to black components • free

Handlebars, stem, seatpost, spacers, dropout plate etc. in black for the Pinion Smart.Shift and Rohloff model variants.

Switch to black wheels and 27.5' • free

All models can also be fitted with 27.5' wheels and optionally also in black for Pinion Smart.Shift and Rohloff.

Dynamo lighting system • from 290.00 €

Choice of LightSKIN LED seatpost, LightSKIN U2 or Supernova with SON or Shutter Precision hub dynamo. Further details on page 12.

Curana mudguards 45mm • 49.00 €

Extremely light and also stable thanks to their special sandwich construction (aluminium-plastic-aluminium). They have been specially customised for Schindelhauer.

Tubus Fly rear pannier rack • 139.00 €

Classic and at the same time purist pannier rack. Made from just two stainless steel tubes, a load of up to 18 kg is no problem.

Allygn The Grill Rack front carrier • 200.00 €

The Grill is very compact with a high loading capacity. It is made from thin-walled 25CrMo4 tubing (0.8 mm) - for a light, robust and stable design.

Grammm Grill Bag 12l • 269.00 €

The bag features the innovative 'Origami' folding lid and can be easily attached with FidLock hardware. It is weatherproof and has two internal mesh pockets.

**Schindelhauer pedals • 45.00 €**

Perfectly shaped design with consistently high technical benefits. Please note: All gravel models are supplied without pedals as standard.

**Minoura bottle cage • from 14.90 €**

Timelessly elegant design and very high quality workmanship: made from duraluminium (Al2017), it is robust and, at 38 grams, light as a feather.

**Spurcycle bell • from 69.00 €**

Spurcycle has succeeded in designing what is probably the best bell in the world. Reduced design and a powerful sound characterise the perfectly crafted bell.

**Hexlox Anti Theft Sets • 99.00 €**

Whether rear wheel, front wheel, saddle/seat clamp or stem - the stainless steel Hexlox insert blocks the way for Allen keys and prevents theft.
